

Deltrol FLUID PRODUCTS

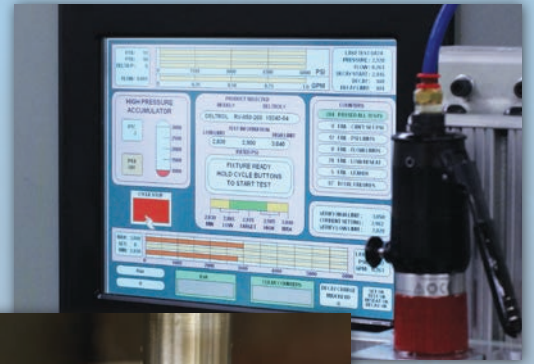

Fluid Power Specialists

- Aerial Work Platforms
- Agricultural Tractors & Harvesters
- Bucket Trucks
- Car / Truck Lifts
- Earth Movers
- Forestry Equipment
- Fork Lifts
- Mining Equipment
- Refuse Equipment & Compactors
- Scissor Lifts
- Snow Removal Equipment
- Hydraulic Power Units

Who We Are

- Providing customer solutions for over 55 years
- Complete line of cartridge, zero profile and in-line valves
- 98% on-time delivery
- Expedited prototyping for custom designs
- ISO 9001: 2015 certified quality system
- Dedicated valve and system design groups work seamlessly to create the most effective and efficient customer solutions
- Solid modeling with FMEA performed on all new designs
- 100% final inspection to all catalog specifications for every valve that ships from our facility
- Design and manufacture custom integrated circuit manifolds and valves utilizing our library of thousands of proven designs
- Products tailored to pneumatic or hydraulic fluid power applications

Who We Serve

We work with OEMs in the following markets:

- Material Handling
- Construction and Agricultural Equipment
- Power and Energy
- Forestry
- Automotive Manufacturing
- Medical and Patient Handling
- Fluid Power Component Manufacturers

Cartridge Valves

- Solenoid
- Check
- Motion Control
- Flow Control
- Proportional Flow Control
- Pressure Control
- 5000 psi Pressure Control
- Relief
- High Pressure Anti-Cavitation Relief
- Sequence
- Shuttle
- Directional

Zero Profile

- Check
- Motion Control
- Flow Control
- Relief
- Shuttle

In-Line

- Check & Shuttle
- Flow Control
- Directional
- Miniature Series
- Pneumatic & Hydraulic

Integrated Circuit Manifolds

- More compact and efficient
- Reduces overall total system and inventory cost
- Customer specific solutions
- Reduced installation time and maintenance cost
- Virtually eliminates external hydraulic leaks
- 100% functionally tested
- Pressures up to 5,000 psi
- Industry common cavities
- Aluminum, steel and ductile iron manifold materials available
- Fittings and other accessories assembled to block as required
